Balance	£4053.50

Professional Sports Coaching

Using sport in school as a tool to aid the all round development of children Professional sports coaches provide a fun, safe, educational and all inclusive environment for learners to 'be the best that they can be'. They focus on the Fundamentals of Movement (FOM) and Fundamental Movement Skills (FMS) of physical literacy through to 'life skills' such as attitude, teamwork, confidence, **health and social issues and more**

Swimming and Sporting Events

Unfortunately due to Covid-19 all swimming lessons were cancelled during the Spring Term and there were no sporting events arranged throughout the whole year.

Telford & Wrekin School Sports Partnership

Working in partnership with schools and community providers across Telford & Wrekin to create opportunities for young people to reach their sporting potential. Inspiring a generation through participation in sport.

Impact: Access to a wide range of inter school competition and training opportunities to increase skills levels

Introduction of healthy food throughout the curriculum

Following a review of the school catering contract the governors are keen to improve the food plan offered to our children.

Working with a consultant chef to develop a curriculum offer around a 'whole food plan' and create a food focus that engages and enthuses children, to increase the knowledge and understanding around food for the children and families. The aim of the food programme:

- To develop and embed a high quality curriculum that has integrated food education to extend our curriculum offer that celebrates culture and tradition as well as a consistently high nutritional value.
- To develop a love and knowledge of where food comes from; through growing and preparing food; understanding how food has a vital place in staying healthy and leading a healthy lifestyle.
- To Increase and maintain strong partnerships with families and carers; supporting families to prepare and cook healthy nutritious meals with children. To provide a curriculum kitchen for families and children to enjoy creating food together.
