Autumn Term Curriculum

Phonics: We are following the RWI scheme of work where children learn a different sound a day. We are encouraging the children to hear the initial sound in words followed by additional sounds when they are ready. Please have a look at the RWI website for more information on the scheme.

Maths: This term we are focusing on shape and measure. We will be learning positional language as well as discovering, height, length, weight and capacity.

Project Learning: Our topic this term is **Back to Nature**. We learn through play by exploring our ideas and thinking during project learning. Projects develop with children's interests, thoughts and questions. This half term, we are exploring children's relationships with their natural world in our 'Back to Nature' project. We have 4 areas of learning for the children to discover, Outside, Art Studio, Construction and Piazza. Outside the children will be exploring growing and planting different fruits, vegetables and flowers. In the art studio, children can represent their ideas and thinking through art. In construction the children can explore building trees and discover using the blocks to create natural objects. In the Piazza area children can access snack for themselves and develop important skills such as cleaning and tidying for themselves.
